

Using Viewpoint in Practice

Viewpoint is a communication tool to help children and young people share their views, wishes and feelings, and inform their individual plan. Practitioners working with children and young people have a key role in ensuring that they are supported and encouraged to use Viewpoint and in following up responses to inform their individual plan and ongoing work.

- Self-assessments are completed using a laptop, tablet or phone
- All text is spoken

Viewing responses

Once a questionnaire has been completed, the responses are displayed on the screen. A practitioner can also login with the young person's details and select report

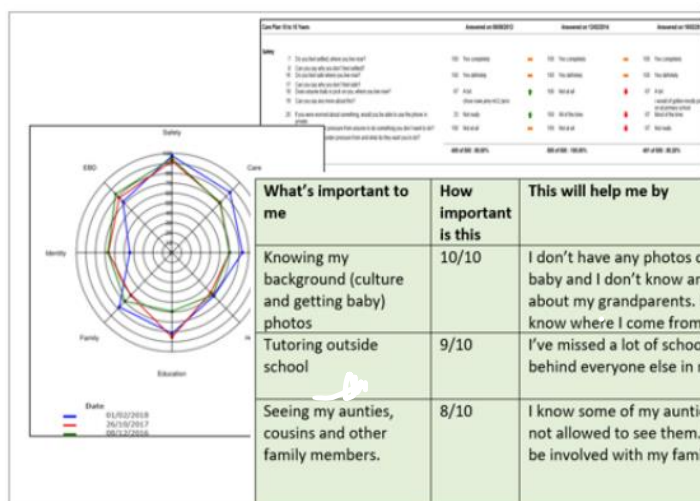

To enable a young person to login use the internet browser on the device

Go to www.vptol.co.uk

Enter your Organisation code
Then the individual login ID and password for the young person

Different displays can be selected

The reports provide the basis for conversations with young people, exploring their responses, clarifying what is going well and what not so well.

What a young person wants to change and achieve can be recorded in the Action Plan available at the end of the report.
